

Epic Dentistry

Epic Dentistry is one of the most advanced dental treatments today. Epic uses a unique technology that combines focused light and thermal energy for a highly precise, exceptionally gentle dental experience. Epic allows your dentist to perform a wide range of procedures with benefits including:

- Faster healing time and less trauma to teeth and gums
- Less anesthetic for most procedures
- Less post-operative discomfort
- Making dental care a more relaxing experience for you

The Benefits of Epic Dentistry

MORE COMFORTABLE

Epic laser treatments provide patients with greater comfort, less bleeding, faster healing, and better results than conventional treatments.

MORE CONVENIENT

Your Epic Dentist can often get you in and out of the dental chair faster! With Epic Laser Dentistry, more can be completed in a single visit.

MORE PRECISE

Epic Dentistry provides consistency, safety, and precision for better management of soft tissue conditions.

What Can Epic Dentistry Do?

Epic Dentistry may be used to treat your gums or other soft tissue in your mouth. It can also help to:

IMPROVE YOUR SMILE WITH TEETH WHITENING

Get a more confident smile! Epic Laser Whitening is a revolutionary tooth whitening procedure. It's safe, effective and fast. In just 20 minutes, your teeth will be dramatically whiter.

REMOVE ORAL LESIONS

Canker sores and cold sores can be painful making it difficult to talk and eat. Your Epic Dentist can safely and efficiently treat sores on your lips, tongue, inner cheek and gums — often relieving pain immediately.

RELIEVE PAIN

If you are experiencing pain and discomfort, Epic works as a therapeutic device that helps to temporarily increase your blood circulation as well as to temporarily relax your muscles within 5 to 10 minutes of treatment.

TREAT GUM DISEASE

Epic Laser Dentistry may be recommended as part of your treatment plan during the early stages of gum disease to help control the bacteria in your mouth and prevent the progression of this disease.

PROVIDE ALTERNATIVE TO TRADITIONAL ORAL SURGERY

No one wants surgery, but when oral surgery is required, a scalpel and stitches can cause pain and discomfort. Epic Dentistry is a gentler alternative providing patients with less pain and faster healing.
